EDUCATION

Candidate Bachelor of Science in Electrical Engineering

Expected: May 2029

University of Arkansas, Fayetteville, AR | GPA 4.0

ENGINEERING-RELATED EXPERIENCE

Founding Lead Engineer at Verum Estates

Fall 2024 - Present

- Piloting end-to-end development of Verum's mobile platform to simplify home buying and selling.
- Executing core features in React Native, Supabase, and Expo, including secure authentication, real-time chat, PDFs, and role-based workflow.
- Collaborating with key stakeholders and early users to align technical solutions with business goals and continuously refine the platform through feedback.

Web Developer

Fall 2022 - Present

- Developed websites for small businesses using AWS and Flask infrastructure.
- Improved Naguara's digital reach by 1,000+ people, directly contributing to stronger community visibility and customer engagement.
- Collaborated with local business owners to deliver tailored user-friendly platforms.

Founder of StudySquawk

Spring 2020

- Founded and launched StudySquawk, a social educational app offering tools like a grade calculator, attendance tracker, discussion forum, and video conferencing.
- Recognized by the Arkansas Secretary of Education for fostering student collaboration and enhancing access to learning resources.

LEADERSHIP EXPERIENCE

Webcast Director of the Rogers First Church of the Nazarene(RFCN)

August 2018 - Present

- Directing and managing a 10-person production team to deliver professional, high-quality weekly livestreams.
- Resolving technical issues in real time, driving improvement, reliability, and viewer experience.
- Mentoring new technicians, fostering skill development, and team growth.

President of Make a Difference Youth Foundation(MADYF)

Fall 2013 - Present

- Organized 45+ community events, college prep sessions, and speaker panels.
- Helped students prioritize academic success through mentorship and planning.
- Partnered with nonprofits to expand MADYF's presence and impact within the community.
